

CaPA's Medicare Anniversary Event: The Future of Primary Care

Primary Care for All Americans (PC4AA) is pleased to be partnering with the California Physicians Alliance (CaPA) in support of our shared commitment to ensuring everyone has access to high-quality primary care. As part of this ongoing effort, we invite you to join us for CaPA's 2026 Medicare Anniversary Event, a national conversation on the future of primary care.

As communities across the country face growing shortages of primary care clinicians and increasing barriers to accessing care, this **virtual event** will bring together leading experts to discuss practical solutions for strengthening primary care and ensuring everyone has access to the care they need.

Featured Speakers:

Michael Fine, MD

President and Board Chair, Primary Care for All Americans

Dr. Fine will explore the evidence for primary care and why it is essential to improving health and reducing costs.

Kevin Grumbach, MD

Professor of Family and Community Medicine, University of California, San Francisco

Dr. Grumbach will explain why primary care should be treated as a public utility and explore how a common fund could help ensure access for all.

Ann Greiner

President & CEO, Primary Care Collaborative

Ann Greiner will discuss the policy changes needed to strengthen primary care and transform our health care system.

Jonathan Fitzsimon, MD

Medical Lead, Renfrew County Virtual Triage & Assessment Centre, Ontario, Canada

Dr. Fitzsimon will share lessons from Ontario's efforts to achieve universal access to primary care, highlighting innovative models that expand access through team-based and hybrid care.

Together, these nationally recognized leaders will explore why primary care is the foundation of a high-performing health care system, examine successful reforms from across the United States, learn from Canada's efforts to achieve universal access to primary care, and discuss opportunities to expand access in California and across the nation.
